PROFILE

Highly skilled and passionate web developer proficient in the MERN stack (MongoDB, Express.js, React, Node.js). With a solid foundation in full-stack development, I am dedicated to creating robust and user-friendly web applications. Possessing strong problem-solving abilities and a commitment to continuous learning, I thrive in collaborative environments and excel at delivering high-quality solutions that meet client objectives.

TECHNICAL SKILLS

Skills 2020-2022

- Programming languages: JavaScript, HTML, CSS
- Front-end: React.js, HTML5, CSS3
- Back-end: Node.js, Express.js, RESTful APIs, MongoDB, Mongoose
- Database: MongoDB, MySQL, PostgreSQL
- Version control: Git, GitHub
- Additional tools: Visual Studio Code, Postman, npm, Webpack

Projects

Pokedex-2.0 2020-2022

- Search functionality: The Pokedex allows users to search for any Pokemon and retrieve its stats, moves, and forms.
- Display of stats and moves: The application displays detailed information about each Pokemon, including its type, height, weight, base stats, and moves.
- Favorite and compare lists: Users can add their favorite Pokemon to a list for easy access, and compare stats between different Pokemon.

pizza-store

web developer with proficiency in MERN stack. I have hands-on experience in developing dynamic and responsive web applications, with a focus on user experience and interactivity. I have built a pizza store application using MERN stack, with the following features:

- User authentication: The pizza store allows users to register and log in securely, ensuring data privacy and security.
- Profile details: Users can view and edit their profile details, including personal information, delivery address, and payment information.
-
